Maybe let's just drop it. We have the significant OU1 documents on the website now anyway.

The collection currently includes 4 documents marked as access type "PRIV(Controlled/Legal-Privilege)," see below. The collection cannot be published with these documents as long as the documents have a controlled access type. There are many choices in how to address this including ORC determining the documents should be releasable, redacting the sensitive portions of the documents & making a new collection with the redacted documents, or probably some other approaches. If you go with redactions, the records center will make new SEMS records for each redacted document and create a SEMS relationship between the unredacted controlled original & the redacted, releasable version.

Thanks Dave. The OU1 AR that we're looking for is AR65874.

I just published the removal AR,
<https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.docdata&id=0801646#AR>

I'm somewhat confident this is the correct AR requested for publication below. If that's wrong, let me know, I can unpublish it.

The "OU1 AR" is too ambiguous for me to determine which VB I70 AR you are referring to. Can someone give me a SEMS collection number for that AR? With a collection number, publishing is quick.

Hey Dave. Can we get these ARs published on the VB/I-70 website?

Thanks,

Dave,

Per Jennifer's email below, would you please publish OU1 AR and OU2 Removal Action AR to the VB/I-70 website in the AR section?

Thank you,

Mark

You ask Dave, through the site attorney, to publish the relevant ARs for the web. Once they are published, links to the collections will display in the Site Documents and Data page of the website.

So, now we have a complete AR for OU1 and for the OU2 Removal Action.

Should we put these ARs up on our VB/I-70 website in the AR section?

If so, how do we go about doing that?
